"I can only tell you that when I'm with him, when I'm in the Great House, I feel that nothing can be done but what has been done. That nothing will change. Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked around at them all like a hurt ox. "And I think it is true. There is no way to regain the Equilibrium but by holding still. We have gone too far. For the Archmage and Lebannen to go bodily into death, and return - it was not right. They broke a law that must not be broken. It was to restore the law that Thorion returned." .of the Old Powers of the earth, but revered them, seeking strength and vision from them. And after the .in the household of the Lord of Ark. Not a poor man's son, but not a child of much account. And .knowing, I preferred not to ask, so I turned away. A young man, wearing something that looked .around one another, in groups of six, eight, blocking the way across the entire thoroughfare, came. "I can't think, here." .BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end. .This will end badly, I thought. I was defenseless, and the lions were as alive, as authentic. .He nodded. "Left myself halfway," he said. He looked up; the Patterner was coming towards them, wide awake now. .which a succession of blurred vehicles raced upward? Now I was completely at a loss. Constantly .cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do. .As he left the battlefield it began to rain, and he saw his enemy's true name written in raindrops in the dust. .a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and. He swept out the dust and leaves that had blown in the open door across the polished wood. He set Heleth's mattress and blanket in the sun to air. "I'll stay here a while," he thought. "It's a good house." After a while he thought, "I might keep some goats." .The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from. He had forced them to boil any water they used. Now he said, "If you eat that meat, in a year you'll begin to get dizzy. You'll end with the blind staggers and die as they do." .cool, as if a mountain stream ran through them. .the foot with copper, worn to silk at the grip. Irian strode forward to face him. .what you ask, and for that we ask your forgiveness. But if you seek to stay here you forfeit. The Kargish kingship, however, was already being manipulated by the high priests of the Twin Gods. Thoreg's high priest, Intathin, opposing any truce or settlement, challenged Erreth-Akbe to a duel in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his powers. The Hardic Deed of Erreth-Akbe speaks only of the hero and the high priest "wrestling," until. .And they talked about that, all the wise women of the island: what was the true art of magic, and. set off up the rough path round the hillside to an old stone and brick stableyard, empty of .forgiveness, and must learn what follows on transgression." .and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped. Dragonfly found the village witch taking maggots out of an infected cut on a sheep's rump. The witch's use-name was Rose, like a great many women of Way and other islands of the Hardic Archipelago. People who have a secret name that holds their power the way a diamond holds light may well like their public name to be ordinary, common, like other people's names. .The Doorkeeper caught up with her as she came to a cross-corridor and stood not knowing which way to take. "This way," he said, falling into step beside her, and after a while, "This way," and so they came quite soon to a door. It was not made of horn and ivory. It was uncarved oak, black and massive, with an iron bolt worn thin with age. "This is the back door," the mage said, unbolting it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the day dazzled Irian's eyes. When she could see clearly she saw a path leading from the door through the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of Roke Knoll off to the right. But standing on the path just outside the door as if waiting for them was the pale-haired man with narrow eyes. "Ride back," he said. "Leave me here. There's enough food for one man for three or four days more. The hinny will bring me back." .Was this still architecture, or

There are exceptions. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons, know some words of the Old Speech innately. "I was taught my art by a mage who gave me freely all he knew, but I never found anybody to give that knowledge to, until you came," he told Medra. "The young men come to me and they say, "What good is it? Can you find gold?" they say. "Can you teach me how to make stones into diamonds? Can you give me a sword that will kill a dragon? What's the use of talking about the balance of things? There's no profit in it," they say. No profit!" Sometimes she frightened him, and he resented it. His dreams of her were never of her yielding to him, but of himself yielding to a fierce, destroying sweetness, sinking into an annihilating embrace, dreams in which she was something beyond comprehension and he was nothing at all. He woke from those dreams shaken and shamed. In daylight, when he saw her big, dirty hands, when she talked like a yokel, a simpleton, he regained his superiority. He only wished there were someone to repeat her sayings to, one of his old friends in the Great Port who would find them amusing. "I have the cheese money," he repeated to himself, riding back to Westpool, and laughed. "I do indeed," he said aloud. So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. Sometimes he was himself the gull, or an eagle, or a dragon, who flew above and before the fleet, and when the men saw him flying thus they shouted, "The dragonlord! the dragonlord!" .the crown himself.
