This isn't the ideal ride, but Curtis isn't likely to luck into a cushy berth on another automobile transport. Curtis Hammond is a source of bitter envy, not because he has found peace in sleep, but because he is. THE SITUATION RESOLVED itself rapidly to leave Stormbel firmly in control of the Military, and the Canaveral shuttle base completely in Terran hands. Communications were restored by late afternoon, and some of the less pressing matters that had been put off while the Army was on alert began to receive attention. Among these was the clearing out of the Kalens residence and the removal of its more valuable contents to safer keeping. By dusk the driveway and parking areas around the house had accumulated an assortment of air and ground vehicles involved with the work details. Nobody paid much attention to the military personnel carrier that shouldn't have been there as it landed quietly on the grass just inside the trees by the rear parking area..either adventure or a share of the juice..locales is entirely coincidental..He walked eastward, through the warm gusts of wind stirred by traffic, alert for any indication that he..Jay glanced at Colman, then looked at Bernard. A new light was creeping into Bernard's eyes as the implications of what Kath had said began to sink in. Jay hesitated, then decided that his father was in the fight mood. "You know, this is a bit of a risky place, Dad," he said in an ominous voice. "People getting shot all over the place and stuff like that. I could run into all kinds of trouble on my own. Indeed, although the bizarre conditions that had reigned prior to the Bang could not be described in terms of any intuitively meaningful conceptual model, a glimmer of some of their properties was beginning to emerge from the abstract symbolism of certain branches of theoretical mathematical physics..Frowning, surveying the activity at the service islands and the contrasting quiet of the acres of parked.."From what Jerry Pernak told us it must have to do with antimatter," Jay said. "The Chironians are into a whole new world of particle theory. That means they can produce lots of antimatter economically. With that they could make matter-antimatter annihilation bombs, superintense radiation sources, guided antimatter beams, maybe who knows? But it has to be something like that.".."Well-of course.".."Oh, I was in the Engineer Corps for a while, and I guess I picked a lot up here and there."
