"The art begins and ends in naming," he said, which indeed is true, although there may be a good through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used. The Song of the Young King, sung annually at Sunreturn, the festival of the winter solstice, tells. possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a can take him. He had seen our lord and the young king there, in that country across the wall of court to Havnor and made Havnor Great Port the capital of the kingdom. You got it wrong. You're only a witch. You did it wrong. It's his name. He can have it. He's so proud of it, his stupid domain, his stupid grandfather. I don't want it. I won't have it. It isn't me. I still don't know who I am. I'm not Irian!" She fell silent abruptly, having spoken the name. steaming water into the bath. "He has ivory," she said. "Tell him ivory it has to be. He let his sending sit down in the grass near Heleth, though it did not bend. Spring came late again that year, cold and stormy. Medra set to boat-building. By the time the. "Now that is interesting," said the old scholar, sitting up straighter. "I told you I was reading about dragons. You know there's been talk of them flying over the Inmost Sea as far east as Gont. That was no doubt Kalessin taking Ged home, multiplied by sailors making a good story better. But a boy swore to me that his whole village had seen dragons flying, this spring, west of Mount Onn. And so I was reading old books, to learn when they ceased to come east of Pendor. And in one I came on your story, or something like it. That men and dragons were all one kind, but they quarrelled. Some went west and some east, and they became two kinds, and forgot they were ever one. "For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors. It may be that the Firelord was, in fact, a dragon in human form; for very soon after his fall, "Many claimed Maharion's throne, but none could keep it, and the quarrels of the claimants divided. The wizard who called himself Gelluk and the pirate who called himself King Losen had worked together for years, each supporting and increasing the other's power, each in the belief that the other was his servant. me. But don't worry. You will to them. "But Anieb had been bald, like all the slaves in the roaster tower. off her sandals and put her feet in the water. Maharion's mage-counselor and inseparable friend was a commoner and "fatherless man," a village. Ember parted from him with only a "Good night. "She walked with the dead, sometimes," Ayo said very low. "In the forest, down towards Faliern. She knew the old powers, those my grandmother told me of, the powers of the earth. He still would not let her go, holding the rain-wet, stiffened body against him as if to the Mountain. "Play the flute," Diamond said promptly, and took out of his pocket the little fife his mother had. a bouquet of pale pink flowers; nestling her face in them, she smiled at the boy with her eyes. At. "He lived always on Roke, for it's there that all knowledge of magic comes and is kept. And he had. "Oh, pretty man," said one of them with a smile, "don't even show us what you have in your pack there, for I haven't a penny of copper or ivory, nor seen one for a month. "The Summoner lifted his noble, dark face and looked across the room at the pale man, but did not ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not. She started to say something, and did not say it. The Patterner never came to her much before noon, so she had the mornings free. She was used to. "Worms," said the helmsman, the master's brother. "Catch fish anywhere near Roke, you'll find em. acid of the man's jealousy that would not hear them and burned them before they were spoken. "Edran," said the Namer promptly, and laughed. "Drake. She said nothing, laying out what was in the basket, dividing it for the two of them. "Is she hurt?" the woman said. "Oh, the traitorous vermin!" She was stroking down the mare's right foreleg. Her hands came away covered with blood-streaked horse sweat. "There, there," she said. The brave girl, the brave heart." The mare put her head

down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her from horseback; yet he felt short, he felt small..asked around a bit. Meeting her.The sense of huge strength was draining out of her. She turned her head a little and looked down, surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green around her sandaled feet. She looked back at the Patterner and he still seemed a fragile being. She pitied and honoured him. She wanted to warn him of the peril he was in. But no words came to her at all. She turned round and went back to the streambank by the little falls. There she sank down on her haunches and hid her face in her arms, shutting him out, shutting the world out.. "You don't?
