"Every motion of a single leaf moves every leaf of every tree on every isle of Earthsea! There is a pattern. That's what you must look for and look to. Nothing goes right but as part of the pattern. Only in it is freedom..".He met there a mage, an old man called Highdrake, whose true name has been lost. When Highdrake heard the tale of Morred's Isle he smiled and looked sad and shook his head. "Not here," he said. "Not this. The Lords of Pendor are good men. They remember the kings. They don't seek war or plunder. But they send their sons west dragon hunting. In sport. words he saw, all at once, the other side of Ember's impatience, her fierceness, her and the bush-beans. She looked at the Doorkeeper; he smiled a little. She followed the pale-haired. The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," *alath*. This word is by etymology (from the True Runes *Atl* and *Htha*) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is *alherath*, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon. He looked at her and said nothing. .can keep his mouth closed. And I'll leave him my lore-books. So for a half-month or more of the hot days of summer, Irian slept in the Otter's House, which was a peaceful one, and ate what the Master Patterner brought her in his basket - eggs, cheese, greens, fruit, smoked mutton - and went with him every afternoon into the grove of high trees, where the paths seemed never to be quite where she remembered them, and often led on far beyond what seemed the confines of the wood. They walked there in silence, and spoke seldom when they rested. The mage was a quiet man. Though there was a hint of fierceness in him, he never showed it to her, and his presence was as easy as that of the trees and the rare birds and four-legged creatures of the Grove. As he had said, he did not try to teach her. When she asked about the Grove, he told her that, with Roke Knoll, it had stood since Segoy made the islands of the world, and that all magic was in the roots of the trees, and that they were mingled with the roots of all the forests that were or might yet be. "And sometimes the Grove is in this place," he said, "and sometimes in another. But it is always." .lightest sound reached me, apart from the sharp hiss that announced the passage, in the street, of. "I come," he said in his joyous, tender voice, and he strode. He had been through a long hard trial and had taken a great chance against a great power. "This is a nice little town," Ivory said, "but the only city in the world is Havnor.".The last beans had got big and coarse on the vines; the cabbages were thriving. Three hens came clucking and pecking around the dusty dooryard, a red, a brown, a white; a grey hen was setting her clutch in the henhouse. There were no chicks, and no sign of the cock, the King, Heleth had called him. The king is dead, Ogion thought. Maybe a chick is hatching even now to take his place. He thought he caught a whiff of fox from the little orchard behind the house..So where is it?" Hound said..My teacher was with me, and his teacher with him," Ogion said when they praised him. The mud was soft and sucking under his feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the circles of ripples from his movement were slight and small. It was shallow for a long way. Then his cautious foot felt no bottom, and he paused.
