Come evening the brother went off, and she said with a sigh, "He'll run up a whole new line of credit at the tavern on the strength of us having a lodger. Not that it's your fault." On the first of his voyages of finding, Medra, or Tern as he was called, sailed northward up the Inmost Sea to Orrimy, where he had been some years before. There were people of the Hand there whom he trusted. One of them was a man called Crow, a wealthy recluse, who had no gift of magic but a great passion for what was written, for books of lore and history. It was Crow who had, as he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, obstinate, and, in defense of his passion, brave. He had defied Losen's power, years before, going to the Port of Havnor in disguise and coming away with four books from an ancient royal library. He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. "Got that from under Losen's nose too," he said to Tern. "Come have a look at it! It belonged to a famous wizard." "Moles," Diamond said. "Honestly, I feel like hiding underground. I always thought Father was going to make me learn all his kind of stuff, after I got my name. But all this year he's kept sort of holding off. I guess he had this in mind all along. But what if I go down there and I'm not any better at being a wizard than I am at bookkeeping? Why can't I do what I know I can do?" city, in these latter days, men and women of the islands speak with dragons, in sign of change. often; the chance of his ever having to use it was very slight. Books of history and the records and recipes for magic exist only in written form-the latter usually in a mixture of Hardic runic writing and True Runes. Of a lore-book (a compilation of spells made and annotated by a wizard, or by a lineage of wizards) there is usually one copy only. mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But the. "You might have a bit of linen, though, mistress? woven, or thread? Linen of Pody is the best-so I've heard as far as Havnor. And I can tell the quality of what you're spinning. A beautiful thread it is." Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too-buttons we're short of. If you had any of horn or bone, maybe? I'd trade one of these little velvet caps here for three or four buttons. Or one of these rolls of ribbon; look at the color of it. Beautiful with your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had any put away, maybe." "The rast from Merid would be

These were words he wanted but had not expected to hear. He took the young man's arm, "Yes. To send away one woman, it takes nine mages." He very seldom smiled, and when he did it was quick and fierce. "We are to meet to uphold the Rule of Roke. And so to choose an Archmage." The shrubbery parted. A winding path. Gravel crunched beneath my feet, shining faintly; "But I came far. Miles can be years. I am Kargish, from Karego. He barely escaped with his life. The Enemy pursued him from the east to the west of Enlad in a trail of ruin. On the Plains of Enlad, meeting the companions who had stayed loyal to him, most of them sailors who had brought their ships to Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up the bodies of his men till they "living, seemed the black thirst-dead of the desert." To spare his people, Morred withdrew. Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the queens and kings of Earthsea," he thought, "and they are only the grass that grows on this hill." "If I was with you, I could use it." "There's nobody in the village could change that," she said. She looked up into his face for a moment. "The whole village together couldn't change that!" she said, and laughed. It was all right, then, though the word "change" rang and rang in his head. He looked from one sister to the other: the one so mild and so immovable, the other, under her sternness, quick and tender as the first flame of a catching fire. "I'm sorry," he said, with enough dignity that Hemlock glanced up at him. She had no wish to explore for herself. The peacefulness of the place called for stillness. "Just for the food and the fire, you know, the peat costs so much now," she was saying, and then looked at what he offered her. There was silence. It would not be easy for me, I thought, to stomach this new world. And about Roke Knoll. Once in years, perhaps, some great lady is allowed to come briefly into the language. "Why are we wasting time here?" he demanded, as Tern let the bucket down into the well. "Are you right, then, though the word "change" rang and rang in his head. Grove, she saw it as stone walls enclosing all one kind of being and keeping out all others, like. The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero: "What will you have us call you?" "Maybe you can find that island," said Ayo. from them, and not all did. All this time they had no word from Early, and no weather was worked. His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Did I say it was an easy life?" A pause. Hemlock looked directly at Diamond. The boy was in fact a workman of the first order, carpenter, cabinetmaker, stonemason, roofer; he had proved that when he lived up here as Dulce's student, and his life with the rich folk of Gont Port had not softened his hands. He brought the boards from Sixth's mill in Re Albi, driving Gammer's ox-team; he laid the floor and polished it the next day, while the old wizard was up at Bog Lake gathering simples. When Dulce came home there it was, shining like a dark lake itself. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so smooth it seemed soft to the bare sole. "Satin," he said. "You didn't do all that in one day without a spell or two. A village hut with a palace floor. Well, it'll be a sight, come winter, to see the fire shine in that! Or do I have to get me a carpet now? A fleecy one, on a golden warp?" Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same.
