They were not anxious to get back to the task that had occupied them for the last two weeks: that of bringing the Podkayne to a horizontal position without wrecking her. The ship had been rigged with stabilizing cables soon after landing, and provision had been made in the plans to lay the ship on its side in the event of a really big windstorm. But the plans had envisioned a work force of twenty, working all day with a maze of pulleys and gears. It was slow work and could not be rushed. If the ship were to tumble and lose pressure, they didn't have a prayer.. "Hold on, honey," Lang said dryly. "If you conceive now, I'll be forced to order you to abort.
