Three children, two boys of fifteen or sixteen and a girl of twelve, were taken by one of Losen's to be ruled by a woman called the Dark Woman, who was in league with the Old Powers of the earth. The tall woman smiled a little. "My sister has never taught a man before" she said. She glanced at him, and gazed away, over the summery fields. "She's never looked at a man before," she said. Then she turned and went down the hill through the long grass, the way she had come. "That girl you liked, witch's Rose, she's tuning about with Labby, I hear. And we'll show them, you and I. We'll teach them. You must have courage, Dragonfly. "It must be weird, coming back like this," she said almost in a whisper. She shuddered. "It was only a beast healer's manual," Crow admitted, when they were sailing on and he had calmed down. "Spavined," I saw, and something about ewes' udders. But the ignorance! the brute ignorance! To roof his house with it! Money was a problem. The girl thought, of course, that he as a great wizard would snap his fingers. Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard. There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready to call a truce and withdraw from the occupied Hardic islands if Maharion would seek no reprisal. He should have my bed-". When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, Highdrake of Pendor had taught him some of the runes of power. That was known lore. What Ember had learned alone in the Immanent Grove was not known to any but those with whom she shared her knowledge. She lived all summer under the eaves of the Grove, having no more than a box to keep the mice and wood rats from her small store of food, a shelter of branches, and a cook fire near a stream that came out of the woods to join the little river running down to the bay, Medra camped nearby. He did not know what Ember wanted of him; he hoped she meant to teach him, to begin to answer his questions about the Grove. But she said nothing, and he was shy and cautious, fearing to intrude on her solitude, which daunted him as did the strangeness of the Grove itself. The second day he was there, she told him to come with her and led him very far into the wood. They walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves did not stir. The aisles of the trees were endlessly different and all the same. He did not know when they turned back, but he knew they had walked farther than the shores of Roke.
